Brian:

Attached are two versions of the proposed access agreements for the Falcon Refinery RI/FS activities. The first (Background) will be used to gain access for the background sampling. The second (On-Site) will be used should we need to obtain access to portions of the Falcon Refinery site that is occupied/owned by someone other than the PRPs. If EPA already has access agreements to the refinery property, the second type of agreement will not be required. We have used the access agreements that were used for the Donna Canal RI/FS as the template for the proposed agreement. Please review the proposed access agreement and let me know if they can be used or if changes need to be made.

Thank you,
Bob Owens
